

Stakeholder Questionnaire

Purpose:

- Increase knowledge of all Commissioners
- Give Commissioners key information needed from stakeholders
- Show progress in work
- Elicit feedback from people/ associations on the ground

Stakeholders:

Providers (CHA, medical society, professional associations), medical schools of education, behavioral/ dental associations, insurers (CAHP), business community, consumer rep/ individuals, county commissioners and rural voice (where struggling to hold on to health care), end of life providers, PHARMA, and others.

Would provide written answers to the following questions:

1. What do you think are the fundamental cost drivers and why?
2. What are the barriers to reducing cost?
3. *Three* things which are unique that you are doing to address cost? Any data might have?
4. Where do you see waste in the system?
5. What are the principal barriers to transparency?
6. What would you change to make things better related to cost?
